Why is WCA's Upper School **INTENTIONALLY SMALL?**

The Upper School is intentionally small because we care deeply about discipleship. We are small so that the faculty know each student by name and by personality which enables them to pour purposefully into students' lives, know them as individuals, and interact with them intentionally. We are small so that each student can be disciplined, shaped, shepherded, formed, and loved by the teachers and staff. Christ modeled for us that the most effective way to raise up disciples is to shape a small group that will then go on and change the world.
