What is the Function of the WCA **LIBRARY?**

The purpose of the Westside Christian Academy Library is to provide rich resources and instruction for the benefit of each student's spiritual, intellectual, and emotional development. These resources, including books and other reference materials, will support the school's dedication to a classical curriculum, as well as the cultivation of wisdom and virtue in each student as befitting a follower of Jesus Christ.

All materials will be intentionally selected to help students develop an appreciation for the best of classical literature and a love of reading. The library coordinator will also collaborate with classroom teachers to provide materials and teaching that reinforce curriculum objectives at each grade level. The library collection will prepare students to become life-long learners with the ability to exercise discernment and understand literature in its appropriate context, while simultaneously seeking to honor age-appropriate innocence.
