DISCIPLESHIP

For WCA Upper School, what are the different kinds of

STUDENT TRIPS?

One important and exciting aspect of life at WCA is our intentionally-planned and executed student trips. These trips are designed to complement the Upper School Curriculum, to provide opportunities for character development, and to foster student's love for the true, good, and beautiful.

9th Grade Washington DC Trip:

Ninth Grade Students travel to Washington DC to experience the historical opportunities, museums, and architectures in our nation's capital. This trip aligns intentionally with our careful and thorough study of American history and government.

Senior Trip to Europe:

Seniors travel to classical Europe, generally Greece or Italy, to experience the lands they have read about through books, to see beautiful landscapes, art, and architecture, and to experience wonderful cultures.
