MATHEMATICS, GRADES 7-12

Full-time, begins September 2024

We seek a dynamic educator to join our faculty as we come alongside parents to raise their children to be all that God desires. The mathematics teacher will join a strong Upper School faculty and will be responsible as a godly role model to instruct our teens according to a biblical worldview and classical methodology, for which we provide on-going training. Our desire is for a teacher who loves students of this age, has appropriate background in mathematics, and may be a generalist enough to teach in another subject if desired. Every Upper School teacher has an additional role leading a student “compass group,” an additional opportunity to pour into the lives of specific students. This teacher will report to the Upper School principal.

Our teachers enjoy adolescents while inspiring them to high standards and the pursuit of genuine Christian faith.
